GENERATION & UPGRADE COMPATIBILITY

CUSTOMER GUIDE

SECTION 03

GENERATION & UPGRADE COMPATIBILITY

Stealth Chrome Edition dumbbells have been through six generations. Current Chrome upgrade packages fit Gen 4, Gen 5 and Gen 6 only.

Q Which dumbbells can be upgraded?

Chrome Edition Gen 4, Gen 5 and Gen 6.

Not compatible: Chrome Gen 1 to Gen 3, Black Edition, Core Edition or other brands.

Q How can I check whether my set can be upgraded?

Turn the selector through its full range. If it twists to 41.5kg, it is compatible.

You can also check the handle: Gen 1 to Gen 3 use a 37mm handle, Gen 4 onwards use a 34mm handle. If you are still unsure, send us photographs of the handle, base and plates.

Q What changed with each generation?

- Gen 1: the original, with a 37mm handle.
- Gen 2: redesigned plates that fixed the Gen 1 splitting issue.
- Gen 3: modular base with replaceable components.
- Gen 4: 34mm handle. First upgradeable generation.
- Gen 5: redesigned internal rods for smoother selection.
- Gen 6: adjustable bases and the official upgrade route.

Q How does the upgrade route work?

1. Start with 4kg to 23.5kg: 14 settings per dumbbell.
2. Add the 23.5kg to 32.5kg package: 20 settings.
3. Add the 32.5kg to 41.5kg package: 26 settings.

Each package includes the extra plates and longer adjustable bases for that stage.

SECTION 03

GENERATION & UPGRADE COMPATIBILITY

(CONT.)

Q Do I need new handles to upgrade Gen 4 or Gen 5 dumbbells?

No. Gen 4 and Gen 5 handles work with the current upgrade packages. Select the correct package and follow the supplied guidance.

Q Can I add spare plates or mix parts from different generations?

No. Capacity can only be increased with the official upgrade packages. Parts that look similar may not work across generations, so only combine them where we have confirmed it.

Q Did all Chrome generations have plate-splitting problems?

No. It only affected the original Gen 1 plates, which were redesigned for Gen 2.

CONTACT SUPPORT

Need help? Contact us through the Assassin Goods Help Centre.

Search for your question, or start a new message. Messages keeps your conversation, order number, photographs and replies together in one thread, so you never need to explain the same problem twice.

PHONE	**01768 631630**
HOURS	**9am – 5pm, Monday to Friday**
RESPONSE	**Within one working day**
BASED	**Penrith, Cumbria**

When to contact us

- Your equipment feels unsafe, does not lock correctly or shows structural damage (stop using it first)
- A selector or handle problem remains after checking the plate arrangement
- Your order arrives damaged, incomplete or delayed
- You need a replacement part or are unsure which component you need
- You want to check compatibility before ordering an upgrade
- You need to start a return or warranty claim

What to include

1. Your order number
2. Product name, edition and maximum weight
3. A clear description of the issue and when it started
4. Photographs of the complete product and the affected part
5. A short video if the issue involves movement, noise or adjustment
